About the Data: U.S. Foundations — Year 2013

The information provided in this report is based on data collected by the Foundation Center. The Foundation Center cannot guarantee the accuracy, completeness, timeliness, or authenticity of the information in this report. Grant data is based on information voluntarily supplied to the Foundation Center by foundations and other grantmakers, and on information extracted from IRS 990-series forms filed by U.S. foundations. Not all foundations report their grants data to the Foundation Center, and those that do report data may not report all of their grants. Grant data is based on information reported to the Foundation Center between January 1 and December 31 of the year indicated. Grants reported in a given year may include grants made in previous years, and grants made in the current year may be reported in future years. Grants may be reported in more than one category, and may be counted more than once in the totals for each category. For more information, please contact research@foundationcenter.org.
